

Love

Love

A pledge,
A promise
In perfection put,
Such light
Within you,
Holy in its freedom,
In its freedom flowering so,
The petal of your lips
A blooming blossom,
Your love a stemming
Center true within you,
To your center's center
Place I my center's sense,
Your scent, ascending,
Whilst breath as close as life
Combines betwixt our kiss,
One hand your hairful holding,
One hand ahold your heart,
Mind with mind acknowledge,
Within you holding dear,
To sing a soul's sonata
Of love infused with living,
Two selves entire blent,
Entire, complete,
Miraculous,
How two made single thus
An engine living form,
That this grey world must yet,
Though only for a flash,
Release its bounds and bondage,
And witness souls in truth entwined
Fly eternal skies together,
Of heaven's moment tasting.
